

THE DOTHAN EAGLE

VOLUME 3

DOTHAN, ALABAMA, TUESDAY EVENING, MARCH 14, 1911

NUMBER 180

THREE NEW STORES ARE GOING UP

CORNER OF MAIN AND APPLE-
TREE STREETS TO HAVE
THREE MODERN STORES.

Mess. Brown & Flowers have closed a contract with Lurie & Levine to build three brick stores just east of the Pileher building known as the Willoughby Cafe. The buildings will front on Main street, and will occupy all of the space from the building of Pileher's to Appletree street.

With the construction of these buildings every foot of available space on the north side of Main street from Oates to Appletree will have been used for buildings.

There is a steady demand for stores, and they don't stay vacant long in this town.

It is a little unusual for the Jewish people to enter actively the real estate business, but it is a safe proposition to invest money in any town where the Jews are buying property.

So Lurie has been buying and improving real estate in Dothan for several years, and when Meyer Levine moved here it didn't take him long to see that real estate in Dothan was good property, and he began buying and building. These two men have improved their property rapidly, and H. Blumberg has joined them in making some big purchases. They don't want a bad piece of real estate in fact, when they buy property it is something that everybody else wants.

They are not buying for speculation, but buying because the property pays a good rental income when improved.

PRINTERS ORGANIZE BALL TEAM

At a meeting of the printers of the city held last night in the office of the Alabama Printing Company, a printers baseball team for Dothan was organized, and will issue their challenges during the coming spring.

Fred H. Martin, of the Alabama Printing Company, was elected manager and field captain. No special position were assigned the players but this will be done as soon as they are given a try-out.

O. G. Strickland, was elected president of the organization, and Frank Wykes, secretary-treasurer.

NO MORE GREASY DOUGHNUTS.

A lady in Greenville, S. C., recently wrote a friend as follows:

"For years, after preparing doughnuts with the utmost care, I was disappointed to see them come out greasy and unwholesome looking. However, with my first use of Cottolene for frying them, I was delighted, as they were brown, crisp and delicious."

"For making doughnuts, pastry, light bread and bakery biscuits I prefer Cottolene to any other shortening on the market. We even carry a pail of it on our annual camping trips through the mountains."

Cottolene is made by The N. K. Fairbank Company, and is much more wholesome and economical than lard. It is sold by all good grocers.

WILL PUSH NEW LIGHT PLANT MOVE

PRESENT PLANT IS NETTING THE CITY \$1,000 A MONTH, SAYS ENGINEER

At a meeting of the city council to be held next Monday night, the movement of the erection of the splendid new light and water plant for the city of Dothan will be pushed and it is expected that the work on it will begin in a short while.

The present plant which is valued at \$30,000 now nets the city of Dothan, \$1,000 monthly, according to the estimate of the city engineer and the new plant will be erected at a cost of \$50,000 according to the present plans.

NEGRO CONVICTED OF PETIT LARCENY

Mose Carroll a negro railroad man was tried this morning in the Mayor's court and fined \$30 or three months work for the city.

Mose was sleeping with another negro at a negro hotel and this morning his room mate missed his money. Carroll was arrested and admitted his guilt. He went out this morning with the street working crew.

NOW IS THE TIME TO BUY FARM LANDS

In the past few seasons can be had on as guides, now is the time to buy farm lands. Of course, few farms can be delivered at this season of the year, but with a small cash payment, the remainder to be paid when the farm is delivered in the fall, there are many farms in the vicinity of Dothan that can be bought.

We have over two hundred farms ranging from forty acres to twelve hundred acres, and any of these will sell for more in the fall than at this time. We are in correspondence with people in the north who are anxious to come south to escape the severity of the winter, and many of these people will buy farms. We sold a 200 acre farm to a New York man last week for \$10,000. That shows what the people of the north think about our lands.

We can sell this week 160 acres of fine improved land adjoining the above place at the same price that the above place sold for. There is some more improved land on this place than the one sold.

Also, we have a 280 acre farm about two miles north of town, in fine state of cultivation, good improvements and running water. We are in a position to sell this at \$50 per acre. Adjoining lands can't be had for less than \$75.

Forty-three acre farm half mile south of city limits, peach orchard six years old, bearing Elberta peach orchard, fine deep loam land, railroad frontage, at \$100 an acre.

See us about Farm Lands
DOTHAN LAND & DEVELOPMENT COMPANY

Phone 428. Opposite new postoffice

EVERY STREET IS TO BE GRADED

THIRTY EXTRA MULES HAVE BEEN SECURED BY CITY FOR STREET WORK

Thirty more mules have been secured by the city of Dothan and will be put to work today or tomorrow grading the streets in the city and getting them on a level with the paved sidewalks. The mules were secured from the county commissioners, who have caught up for the present with the good roads work, and were leased to the city for their feed and care for three months.

There is already one large crew at work grading and having finished work on North St. Andrews, Foster, north and south and Oates street north and south, and also a large portion of Main street.

The crews will now be enlarged and will continue work until all the streets in the city have received the much needed attention of the grader.

LETTER FROM FORMER SECRETARY BIGGERS

Makes Some Good Suggestions which Should be Adopted by Dothan.

Editor Eagle,

Having resigned the secretaryship of the Dothan Commercial Club, and therefore being in a position to speak freely as a citizen of Dothan without fear of having my words misconstrued, I am constrained to make some statements pertaining to the continuance of Dothan's prosperity.

From a financial standpoint, for several months Dothan has had no organization looking to the promotion of the interests of the town commercially. For the sake of appearance, I have kept up the correspondence of the club and entertained visitors to the city with my personal funds.

The time has come, however, when we can no longer pretend. There are conditions ripening which make it imperative that the city have a live organization to do those things which of the town who does not co-operate with such an organization, retards the continued progress of the city and thus injures himself. Other towns are at this time pulling for railroads which are logically Dothan's; manufacturers from the north are seeking locations in the south where they can run their establishments twelve months in the year instead of nine and where raw material is cheaper; northern capital is seeking profitable investments, northern people are seeking homes in the more delightful climate of the south. Shall we continue to sit idly by, while dry goods boxes and let all these desirable things go elsewhere?

There is strength in unity and co-operation. A business men's league, commercial club, board of trade, or whatever else it might be called, is just as essential to the development of a municipality commercially as water to the growth of a plant. Our local capitalists form a corporation for the purpose of doing what an individual cannot do alone. Why cannot our citizens form a corporation for the promotion of the interests of a municipality commercially, as thus make money for the entire town?

We must organize and that at once. If there are non-progressives who must be pushed aside ruthlessly, they would retard the movement, they my part, I do not care to live in a dead town and a town without a live commercial organization is a dead town.

Yours truly,
L. G. Biggers.

COLONEL E. H. HILL TO SPEAK AT OZARK

Col E. H. Hill left this afternoon for Ozark, where he goes to attend the joint banquet and celebration of the Knights of Pythias, Odd Fellows, Woodmen of the World and Red Men orders of that city, which will take place tonight.

Mr. Hill will address the assembly in behalf of the Ozark Knights of Pythias. After the address the banquet will take place.

Mrs. Em Henson, Mrs. Mary Kirkland and Mr. and Mrs. Vann, of Abbeville, are here today shopping.

W. P. Newton, an experienced architect from Birmingham, has accepted a position with Brown & Flowers.

J. T. PENTON ARRESTED ON PROBATION CHARGE

IMMEDIATELY AFTER TRIAL THE PROSECUTOR IS TAKEN INTO CUSTODY

J. T. Penton, a white man, was tried yesterday before Commissioner C. S. Tutwiler on a peony charge and was bound over under a \$500 bond. He was arrested on a warrant sworn out by Houston Franklin, a negro man who alleges that Penton had been working him against his will.

Immediately after the trial of Penton, Franklin was arrested by Sheriff B. O. Hoy, charged with selling whiskey in Covington county, and was carried to jail.

DOTHAN'S DEADLIEST ENEMY

- The common house fly takes more meat, fouls more food, spreads more filth and sows more germs of disease than any other single factor in our civilization
- Screen Your Houses and Stores

The best things that a boy of fifteen ever sees are things to eat

The Montgomery Journal sets up position for several of the Alabama congressmen the next time

What has become of the old fashion mother who was afraid the gypsies would steal her little boy?

Britain is to spend \$222,000,000 on a navy that will stack up with the best, which announcement is enough to set Capt. Hobson going again

It is said that the three or four republican representatives in the Alabama legislature behave themselves, like the nicest kind of little men, and never give the other members any trouble

Ballinger hasn't threatened to go home and run for congress or write a book. We didn't think he was half as bad as he was painted

From the weather we are having it would seem that the weather man is determined not to have northern markets flooded with early tomatoes and garden peas

Abe Ruef has just begun to serve a fourteen-year sentence. The man will be advanced in years till he will be out of line with the city politicians by the time he gets back into the service of corrupting town politics

Congress should have voted Walter Wellman some thanks before it adjourned, for the admirable manner in which he has managed to stay out of the public prints since he fell into the Atlantic ocean. He is probably drying his clothes

The present legislature has made a record in bringing to light men who have been wandering in darkness for a time. A depleted treasury was found, but new officers are being created and salaries are being raised in a manner that would indicate the some new sources of income have been discovered

In case Colonel Bowman gets bolsterous, whose duty will it be now to capture him and try him? Will he be amenable to the civil authorities, or will the military have to deal with him? In either event, he will give them a good show. He certainly has some advertising features that he ought to be able to capitalize

It isn't known yet whether there will be an extra session of the legislature because it isn't definitely known how the whiskey legislation will come out. If it is satisfactory to the whiskey interests there will be no extra session. If they draw a deal that doesn't please them, they may insist on the body meeting again, and again, till relief is given

Not P. G. Bowman any longer if you please. Having worked himself up from the ranks, in the language of the military man, he has now achieved the rank of a colonel aided and abetted by Governor O'Neal, under whose banner he has enlisted and on whose staff dangles as an ornament. He's a colonel on the governor's staff and you needn't laugh—not in his presence

While the teachers are busy training the young mind how to think they should not neglect the opportunity of teaching the same little mind how to express itself without using all of the words in the book. The average child, like its parents, has to use a hundred and fifty words to express itself about a mat-

ter that could be told in twenty-five if the proper economy of words had been taught

What has become of that old time farmer, who talked all spring about selling out and going to Texas next fall? Bless Katy—he went. He put a price on his land and it sold, and he has never owned an acre since. He sent back home to a friend and borrow enough money to return and is a landowner. He d rather live fifteen years and die in Alabama than live all his life in Texas

We have seen but little improvement in the make up and editorial style of the Congressional Record but we suggest that as soon as it is issued under a Democratic period that the news editor print the census reports. They would make interesting reading, even if but half a dozen towns are added up a week. It there is over a department that needed investigating it is that census enumerating crew that is supposed to be adding up the total number of people in the country

The sheriff of Pike county went down to a negro church near Troy the other day, to look after some negroes who had been rowdying about the church that day. He took his stand at the door and as they came out, he searched them all for weapons. He found none but he went inside the church when it was vacant and found six ugly guns lying on the seats and a pair of brass knuckles. The negroes had suspicious and unloaded their weapons before coming out

The last legislature went down on record for making more costly mistakes than any in years. The present one got a funny one over the other day. In the wording of the Birmingham commission bill, it meant to say no one under 25 years could serve on it but the error had it that no one over 25 years could act as a commissioner. So the bill had to be sent back to the legislature for another reading

WHO HAS LEFT DOTHAN?

It is natural for good newspapers to say a good deal about the towns that allow them to exist. We all get used to that. But in all seriousness how many people have moved away from Dothan?

You might count them on the fingers of one hand. We don't count the comers and goers—those who merely pour water on the fire and call the dog when they go to leave. We speak of people who have really accumulated property, and who sold out what they had here in order to invest in some other community. You won't find but few

They are forever sending back and bringing others, once they become a citizen. That is what built this city

AS TO THE WOMAN'S CROWN OF GLORY

It is barely possible that false hair will go out of style. We think we see its finish, as soon as the following item soaks into the heads that built a thing of beauty out of foreign grown hair. Hear this from the Atchison Globe

"The plague is ravaging China, and the famine is also busy there. The thifty survivors are on the job prepared to fill any long felt want that may occur in the hair line. Before the bodies go to the burning what (whatever that is) they are

sheared of their raven or irongray locks, together with any kemp they may have braided in before hunger or pains in the throat caused them to lose their pride. This surplus all nicely disinfected and colored to suit, will soon be on the market. Of course there is just a chance that the disinfectant might not work. But one must always take chances, and is it not written that warran hair is her crown of glory without any specifications as to where she may acquire it?"

It will take a case of the plague to break the American woman from the foolish style, started by some gay gal from Paris whose company they couldn't afford to be caught in and who knows but what it will come?

LET'S DO SOMETHING

Former commercial secretary Biggers has an article in another place, that has some good suggestions

This is the time to have a live organization to look after the interest of the town. It should be somebody's business to look after correspondence and keep Dothan's best foot forward

We all want to see the town continue to grow. We know that it will but we should keep a live commercial club organization going of our kind

The big enterprises headed this way but they need the proper encouragement. They need to be shown that they cannot afford to make an investment until Dothan has been lawfully started

To do these things it takes a man who will continually keep at it

This town ought to come together, and subscribe a fund to keep the town properly advertised and charge it off to advertising expenses, just as one charges off local advertising or taxes to have bigger town we must lend a hand. To do this the easiest way is to hire some one to do it for us. Put the fund in the hands of a committee to receive and pay it out and lend the enterprise the proper encouragement

No one should object to paying in a certain fund sufficient to meet the demands of the organization for a year. The money should be paid in, and we know it will be spent in way that will benefit every property owner in the city

Then why isn't a live commercial club organization a good investment from a business standpoint?

Let's fall to and get it going

GOVERNOR'S EXTRAVAGANCE

Governor O'Neal hasn't shown a proper spirit of economy in the distribution of his pile. For instance, no one was surprised when he elevated Bowman to the best paying job within his power to bestow but all thought that this should satisfy P. G. May be it did. But when a detachment of colonels had to be formed the Governor very lavishly bestowed the title of Colonel on Bowman because Bowman's is a striking personality and the Governor probably thought that he would make a figure to be admired of all men, to say nothing of the women

If O'Neal has figured on that thing different he could have put some other prominent citizen on his staff, with the rank of colonel, and the job would have probably satisfied some man who was looking for a \$3,600 a year job. But this is bunching bits to score a run. The run isn't going to count for much when it is scored

Of course he has never been gov-

Makes Home Baking Easy

ROYAL BAKING POWDER
Absolutely Pure
The only baking powder made from Royal Grape Cream of Tartar
NO ALUM, NO LINE PHOSPHATE

rior before but he has had several months to figure on these appointments, and it does look like that he has made a mess of some of it

There is a little section down in the wire glass of Alabama that hasn't received anything from the Governor yet, but they are looking for it. If all of those desirable jobs give out before they get down in this section, there will be a row that is some noise. Not that these people feel the urgent need of the office, or the honor, for, in fact, the more they see of the appointments made, the less they feel like accepting a position at the hands of the governor, not knowing what sort of company they may be called upon to keep

With the number of plums to be shaken down and passed around by the administration a pretty fair protection wall should be built but the wall that is now being built will fall down like the one Joshua's host shouted at several years ago. In fact, some of the high priests have already begun the seven days' march around the city

Mr and Mrs R. J. Montgomery, of Ashford, visited the family of Mr D. J. Williams today

LIQUID CURES ECZEMA WHERE SALVE FAILS

In regard to skin diseases medical authorities are now agreed on this: Don't imprison the disease germs in your skin by the use of greasy salves, and thus encourage them to multiply. A true cure of all eczematous diseases can be brought about only by using the healing agents in the form of a liquid. WASH THE GERMS OUT. A simple wash. A compound of Oil of Wintergreen, Thymol, and other ingredients as combined in the D. D. D. Prescription penetrates to the disease germs and destroys it, then soothes and heals the skin as nothing else has ever done. A 25 cent trial bottle will start the cure and give you a instant relief.

N. H. McCALLUM

FOR SALE.

A splendid two story brick store, new and exceptionally well built. Rented for \$80.00 per month.

A brick stable in good location at \$5500.00. The brick in walls and street paving are worth more than half the money. You will sure regret it if you miss this bargain. Lot is 15 feet by 137 feet.

The business lot between the Government Building and Presbyterian church, 80 feet front and good depth. This lot is large enough for three good brick stores.

A nice home on West Main Street in one block of Oates Street that should interest you if you are after the right location.

Three vacant lots on West Main, 66 2-3 feet by 200 feet for \$500.00 each or \$1500.00 for the three.

Three acres of land near West Main street facing two streets at \$2100.00 for the whole tract.

A large lot on corner of Alice and Washington Streets with four room house. A good location on the corner for a store.

One of the most attractive homes on North Oates Street and several beautiful vacant lots on South Oates Street.

The Banquet to Henry Clay in New Orleans in 1842 Cost \$100 per Plate

Never before had the historic old St. Louis Hotel, near the famous French Market Place, contained such an assemblage of beautiful women and famous men. Here it was that Henry Clay made his only speech in Louisiana, and with matchless eloquence paid a glowing tribute to the beauty of Southern women. Before and after this banquet the guests sipped the famous French Market Coffee, as was the custom in those days. Then this famous beverage could be had only at the French Market. Now you may serve it at your own table, for the old French Market blend is perpetuated by

The Same Unique Hygienic Roasting Process "There is but one French Market flavor"

You can obtain this rare coffee blend with all the enticing aroma and natural strength preserved, for we pack it in hermetically sealed cans. And it is untouched by human hands from plantation to the cup. Order from your grocer today. Try some, and you will agree that there is only one French Market flavor.

Our Summer Suits

will impress any young man at a glance with their uncommon style--and any young man with one of them on will impress any one at a glance with his uncommon appearance.

We attribute the continuous growth of our clothing business to the fact that men naturally gravitate to the store where they find clothing which fits their personality and thereby distinguishes them from the ordinary.

That is why our suits embody the natty features for young men as well as conservative ideas for men of quiet tastes.

THE WOMENS STORE

Store News—Superlatives

We believe an ad. should be store news. We believe it should read just as it is told you "over the counter." We believe it should be understated, rather than overstated. We believe superlatives should be used only in rare cases. We try at all times to make our ads so read that you will find the items we tell you about better than you expected. We believe if you knew our methods and our stock as we do, you would agree that no one house in South Alabama has the merchandise for women and children that you will find on our two floors. On our top floor—we understate it when we tell you—we have over \$25,000.00 ready-to-wear apparel, and every Eastern express adds to our stock. We want you to become so well acquainted with us that you will always come here to do your shoppings.

All Calicoes in the house, including Simpsons Pecales, American Indigo and Shirting prints, Simpsons greys, black and white, Garners reds and oil prints. Printed Lawns, stripes, checks, and floral designs, pretty patterns and fast colors, splendid for children and house dresses.

Staple Gingham, good cloth usually priced 8 cts, as low as any Alabama jobbing house would sell it in quantities.

Yard wide unbleached sheeting, would cost us more today at the mills.

**5
Cts.**

Yard wide Linette, registered cloth, made at South Boston Va., by one of the Souths best mills, always at 15 cts.

Superior Batiste, confined to our store for Dothan, Dots, rings and floral patterns, a beautiful sheer cloth, most stores would consider good at 15 cts.

Amoskeag Utility dress Gingham in all 1911 patterns, fast colors.

Bookfold Madras and Cheviots, for dresses, aprons, childrens frocks, and mens shirts, fast colors.

Coated Swiss, dots and figures, yard wide, special value.

Yard wide linen finish suiting, the best we have ever had for

**10
Cts.**

SILKS

This is a Foulard Silk season—we prepared early for we kind in advance how scarce good styles would be. We are showing Foulards 26 inch wide as low as 35 cts. We have a big range at 50 and 59 cts. We have the famous Cheny Bros "Shower Proof" Foulards in new styles at 79 and 89 cts. Our collection is large and each one has a modest price on it.

SUESINE SILKS

Look up your Fashion book and see what Suesine Silks are advertised at 39 cts—Our price for all colors is 25 cts. (They wash—splendid for slips.)

ONE PRICE

Last July we adopted the "one price to all alike" system, and barring mistakes, we have never deviated from this system in one single instance. We are building for years to come and the only way to build a big business is to treat everybody alike. There is only one way to do a business, in our mind, and that is the right way. We most positively do not believe its right to have one price for one customer and a different price for another

We mark everything in plain figures and it is positively the same to everybody. Your child can buy anything here as cheap as you can, and you can buy it as cheap as anybody on earth.

BED SHEETS
